ARC Public Speaking Programme

The Youth Has a Voice. We Help Them Realise It....

It is better to debate a question without settling it than to settle a question without debating it.

The well known French moralist and essayist, Joseph Joubert has perfectly expressed our ideology very succinctly. A lot of us have grown up refraining from presenting our views in front of an audience for numerous reasons such as **stage fright, lack of self confidence, limited social adaptability or even simply due to lacking an opinion on various matters.**

As we are well aware, school years provide us with the best opportunity to stand up and speak out. There are different types of public speaking events which include **extempore speech, poetry recitation, just a minute (JAM), group discussions, elocution, presentations, MUNs, debates and even case studies.** Each of these events needs to be approached with a different mindset and students need to be trained differently for each of them.

ARC (acronym for Actualise, Resonate, Cogitate) is MUN World India's certified public speaking programme for students from Grade 3 to Grade 12. **Focusing on solely helping students develop their public speaking skills and participate in various different public speaking competitions at various levels, ARC is unique in its approach towards oratory, expression and vocal delivery.**

Furthermore, often individuals and institutions suffer from logistic limitations which prevent their students from getting trained and subsequently participating in such events. It is with this in mind that MUN World India has developed the ARC programme.

Some of the popular public speaking events for which MUN World India provides channelized and comprehensive training through its ARC programme include:

- ✓ **Debates**
- ✓ **Group Discussions and Case Studies**
- ✓ **Presentations**
- ✓ **Extempore Speech and Just a Minute (JAM)**
- ✓ **Elocution and Poetry Recitation**
- ✓ **Model United Nations Conferences**

While some of our other programmes such as LEAD provide students with an insight and basic idea about such public speaking events, ARC is designed to train students in totality for them. **The main objective of ARC is to initiate students into public speaking and orient them in a way which makes it part and parcel of their lives.** While myriad other skills get developed in the bargain, our biggest victory has been in seeing so many ARC students who initially suffered from stage fright going on to emerge victorious in national and international level public speaking conferences across the country.

Programme Details

ARC can be conducted as a short term as well as long term programme*. The programme is divided into four levels as follows:

- ✓ **Level 1 (for students of Grade 3 to Grade 6)**
- ✓ **Level 2 (for students of Grade 7 to Grade 10)**
- ✓ **Level 3 (for students of Grade 11 and 12)**
- ✓ **Level 4 (for college students)**

Each level focuses on training for public speaking events pertinent to the concerned age group. While some public speaking events like debates are common to all levels, some others like Model United Nations cater to students of age groups starting from Level 2 only. Additionally, maturity and other skill sets vary for students of different age groups. Hence, so as to ensure complete effectiveness of ARC for students of all age groups, we have divided it into different levels. The training style, speed and approach also vary level wise.

Course Structure

ARC is provided as a short term as well as a long term programme*. **Each level comprises sessions which are for a total of 15 hours. While it is also possible to take ARC training for a specific type of public speaking event such as a debate or elocution, it is highly recommended that students go through the entire training process for each level** as we believe that every public speaking form is inter-related and a student can only become a good orator and public speaker if he excels in each of them.

One of the most attractive features of ARC is that every participating student gets free assistance facility from MUN World India for help in preparing for any public speaking event subsequent to ARC for a total period of a year. This ensures they consolidate the thought process imparted during ARC and receive our expert assistance always.

Each public speaking format is dealt with differently and in a way best suited to it. The general pattern followed is as follows:

- ✓ **Introduction to the rules, regulations and formats of a public speaking event (E.g. a Debate)**
- ✓ **Advanced training, tips, nuances and pointers to master this public speaking form**
- ✓ **Practical sessions and intra-group competitions to put the theoretical training to test**

Ample time is dedicated towards each of the public speaking formats that form a part of a particular level.

**The long term ARC programme is available only in Mumbai, Pune and New Delhi currently*

Salient Features of Our Programme

- ✓ **Unique Approach Towards Public Speaking Development Specific to Each Format**
- ✓ **Focus on the Nuances, Method and Art of Mastering Every Public Speaking Format**
