Emergence

EMERGENCE

A unique enterprise with a simple 4 point mission:

- 1. Spreading Global Awareness*
- 2. Developing Critical Soft Skills*
- 3. Encouraging Proactive Participation*
- 4. Promoting Expression and Ideation*

Features

- ✓ Educational Programmes
 - LEAD
 - ARC
 - Enlighten MUN
- ✓ Online Resource Base
- ✓ Event Listings
- ✓ Online Global Awareness Forums
- ✓ Event Organisation Services

Emergence Programme

Working Towards Making Graduates Employable....

Statistics show that **only 27% of today's graduates are employable**. The reasons attributed for the same are numerous. For starters, though many graduates are academically competent, their inability to communicate their ideas and their lack of basic soft skills like lobbying, man management, negotiation skills and team work make them an unattractive proposition for recruiters.

At MUN World India, we truly believe that every student has the ability to emerge from the shell in which he/she takes refuge while bottling up his/her opinions and power of expression. **With a little bit of exposure and fine tuning of certain soft skills, we believe that every student has the capability of emerging from this shell and taking on the world.** Emergence is MUN World India's programme which tries to fulfil this objective.

Organised as a **short term workshop** (2 to 3 days based on requirement of institution), Emergence provides students with effective training for group discussions and personal interview sessions while also helping them develop the following skills:

- ✓ **The Art of Introduction**
- ✓ **Sales Pitches**
- ✓ **Self Promotion**
- ✓ **Developing and Expressing Opinions**
- ✓ **Spontaneity**
- ✓ **Brainstorming**
- ✓ **Problem Solving**

And many others important skills....

A sizable section of the workshop is dedicated towards helping students master the art of participation in **group discussions and personal interviews** which form an integral part of any job selection process.

Emergence is an extremely well researched and developed programme that has undergone evolution and has seen students of many colleges across India develop their **confidence and master the ability of presenting their opinions, speaking with conviction and panache.**

We believe that the all round training provided to students via the Emergence Programme is quintessential towards ensuring that each one of the 73% supposedly unemployable graduate students can take the world by storm and ensure themselves sure shot and lucrative placements.

Programme Details

Emergence can be conducted either as a two day or a three day programme (15 hours) based on limitations and requirements. The programme has a perfect balance of theoretical and practical training. The details of the 3 day programme are as follows:

Day 1 (5 hours)

- ✓ **Art of Introduction:** Students are taught how to master their first impressions, 'elevator pitches' and ace their basic interpersonal skills.
- ✓ **Collaborative Problem Solving and Developing Opinions:** Participants are then given an insight into the process of collaborative problem solving, developing and expressing opinions as well as participation in various team centric activities.
- ✓ **Group Discussion Training:** The major part of day 1 is dedicated towards acquainting students with the art of mastering group discussions, tips and tactics after which they are made to participate in numerous group discussions of various natures including abstract group discussions (GDs).

Day 2 (5 hours)

- ✓ **Negotiation Skills:** Participants are taught the art and basic tips for good negotiation after which they are made to participate in interesting practical sessions to master these skills.
- ✓ **Problem Solving and Decision Making:** The next section of the workshop is dedicated towards mastering skills like problem solving and decision making. Basic methods like the PDCA model and the Six Stage Model are taught to the students and they are made to apply this in practical sessions.
- ✓ **Self Promotion and Sales Pitches:** The last section of this day is dedicated towards teaching participants how to make a good sales pitch and how to promote themselves – two facets imperative for surging in the rat race.

Day 3 (5 hours)

- ✓ **Spontaneity and Quick Thinking:** The day starts off with students being taught how to improve their spontaneity. Most students suffer majorly from problems like hesitations, faltering and stuttering. This session addresses this problem.
- ✓ **Brainstorming:** Subsequently, participants are acquainted with the method of brainstorming which forms an integral part of any ideation process and helps them improve their logical analysis.
- ✓ **Personal Interview Training:** The major chunk of time on the final day is dedicated towards acquainting students with the art of acing interviews and making them participate in them.

Salient Features of Our Programme

- ✓ **Small Batches with Personalised Attention**
None of our batches exceed strength of 40 students. We pride ourselves in being able to ensure personalized feedback.
- ✓ **Only Certified Programme Focusing on Holistic Skill Set Development**
The Emergence programme is fully certified and works towards ensuring a comprehensive insight into the various important soft skills mentioned.
- ✓ **Doubt Solving and Assistance Facility to All Participating Students**
All participating students are provided with a 1 year free facility of contacting us in case of any doubt or query and in the scenario that assistance is required.
- ✓ **Great Platform for Exposure to Public Speaking and Extra Curriculum**
Emergence provides a good platform for students to participate in public speaking, technical paper presentations among several other collegiate level events.
- ✓ **Personalised Student Reports and Feedback**
Every single participating student receives a separate personalised feedback form and report which focuses on aspects that are specific to him/her.
- ✓ **Flexibility of Programme**
The programme can be customised based on the requirements of various institutions and can also be scheduled in a manner convenient to them.

Cost of Programme

The cost of the Emergence programme is on a per student basis and is dependent on batch sizes, scheduling, customization required and location of the institution under concern.

Our Esteemed Clientele
